To All Local Enforcement Agencies:

The Solid Waste Disposal and Codisposal Site Cleanup Program (AB 2136) was created to solve environmental problems created by solid waste. The program is one of the ways that the Integrated Waste Management Board is able to provide service and funding to local governments. The program funds projects through grants, loans and board-managed project components. In order to identify the universe of sites that may be eligible for funding, board staff compiled a list of sites throughout the state. The list for your county has been narrowed down to the enclosure with this letter.

Staff from the Integrated Waste Management Board (Board) are requesting your assistance in evaluating and prioritizing potential sites in your county that may meet the requirements for funding under the 2136 program. Please review the attached list compiled from the Board's SWIS database for your county. Each site has been described as follows:

- Needs to be investigated – Board closure staff has no information on this site.
- Potential site – Board closure staff feels this site may meet the 2136 program criteria.
- Site can not be located – the exact location of the site is unknown and perhaps it does not exist.

If you have any further information on these sites, if the site does not exist, or you have additional sites you would like to have considered for the 2136 program, please respond in writing by September 15, 1997.

We are particularly interested in your recommendations regarding sites that you view as a high priority for remediation/cleanup due to the threat they pose to public health and safety and the environment. Refining the list will better enable the board to assist in cleanup of the sites, which you view as the highest priority in your jurisdiction.

I want to thank you for your assistance as we seek to better meet your needs. If you have questions and would like to discuss the program or the list, please call me at (916) 255-2347.

Sincerely,
